

Allegheny Table

The Allegheny Table pairs the organic beauty of a solid live-edge slab with the strength and craftsmanship of a traditional trestle base. Shown in Oregon Black Walnut, each table highlights the natural contours, figure, and character of the wood, making every piece truly one of a kind.

A hand-built trestle base features exposed joinery and an inlaid brass tenon wedge, celebrating the construction rather than concealing it. Designed to showcase the natural beauty of solid hardwood while providing exceptional durability, the Allegheny Table is built to serve as the centerpiece of gatherings for generations.
