

Malibu Credenza

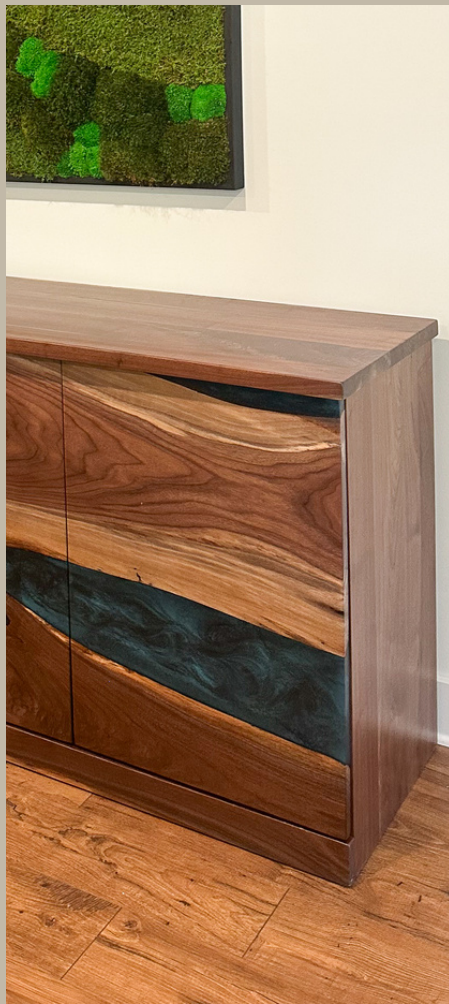

Inspired by the meeting of land and sea, the Malibu Credenza showcases a continuous epoxy river flowing across four door fronts, creating a dramatic focal point while preserving the natural beauty of the hardwood. The seamless river design is framed by solid wood construction, with matching solid wood top and side panels that emphasize the craftsmanship and character of each board.

Behind the four push-to-open doors are adjustable shelves and dedicated space designed to accommodate a wine cooler, making the piece equally suited for dining, entertaining, or media storage. Soft-close hinges, a flush-to-floor design, and clean, uninterrupted lines give the Malibu Credenza a refined contemporary presence.

Specifications
