

Olympia Credenza

A study in restraint and material integrity, the Olympia Credenza is designed around the beauty of uninterrupted hardwood surfaces. Its defining feature is a seamless front elevation, with drawer and door faces cut from continuous slabs to preserve the natural grain flow across the entire piece. When closed, the façade reads as a single composition, highlighting the character of the wood.

Three center drawers are flanked by two spacious storage cabinets with adjustable shelving. Solid wood panels are used for the top and sides, minimizing glue joints and emphasizing the scale and beauty of each board. Soft-close, push-to-open hardware maintains the clean, handle-free aesthetic while providing effortless functionality.
