

Ventura Credenza

A refined balance of craftsmanship and modern design, the Ventura Credenza showcases the natural beauty of solid hardwood through clean lines, thoughtful proportions, and meticulously executed joinery. Three drawers with exposed finger-joint construction sit above sliding bypass doors, creating a functional storage piece with a warm, architectural presence. Built from solid hardwood and elevated on four hand-turned feet, the Ventura features integrated finger-groove pulls, polished aluminum door tracks, and an exposed finger-joint base frame that highlights the craftsmanship behind every detail. Behind the sliding doors, adjustable shelving provides versatile concealed storage for dining, living, or office spaces. Available in Black Walnut, Maple, and other wood species upon request, each piece is finished with either our hand-rubbed oil finish or durable Seven Fold Finish.
