

Classic Windsor Sackback Chair

A timeless solid wood Windsor dining chair, rooted in early American craftsmanship and built using traditional methods passed down through generations. The Classic Windsor Sackback features a sculpted hardwood seat, slender vertical spindles, and a gracefully steam-bent solid wood back and arm, creating a light yet structurally refined silhouette.

This design holds a deeper significance—it is the chair that defined the foundation of our craft. Built using the same techniques first learned and refined over years of hands-on woodworking, it represents the discipline, precision, and respect for material that continue to guide every Vestige Furniture Studio piece.

Constructed with lathe-turned legs and stretchers, and traditional through-tenon and wedge joinery, this chair reflects true chairmaking heritage—engineered for strength, longevity, and everyday use. Its balanced proportions and open form allow it to live comfortably in both classic and modern environments.

This handcrafted dining chair reflects the craftsmanship, material selection, and design precision that define every Vestige Furniture Studio build.
